Auckland is a great base for exploring further afield.

Many of New Zealand's top attractions and most striking landscapes are within a few hours' drive. Our study abroad students often spend weekends exploring the North Island or fly to the stunning South Island during the two-week semester break.

Our campus and accommodation are in the heart of cosmopolitan Auckland. Placed between the Pacific Ocean and the Tasman Sea, Auckland's unique geographical position means you can enjoy living close to stunning beaches, untouched forest and tranquil islands. Add to that Auckland's great urban lifestyle, and it's clear why Auckland has been ranked third for quality of life.

“I chose New Zealand because I thought it would be the most unique experience, and one that I may not be offered again. I am more than content with my decision to study at the University of Auckland, as this has been some of the best time I’ve ever spent.”

“The University is so diverse, especially compared to my hometown. I have met such genuine people, attended events that I never would have imagined, visited so many unique places and made memories that will last a lifetime. In the future I hope to pursue a career in the fashion industry. Studying abroad will help to broaden my global mindset and strengthen weaknesses I didn’t even know I had.”

Leah Marsh

Study Abroad student from the University of Delaware, USA.

Expand your mind

Make the most of your study abroad experience by choosing subjects and courses that are unique to New Zealand or unavailable at your home institution.

Māori and Pacific Studies

Auckland is well known as the largest Pacific city in the world. Immerse yourself in New Zealand's unique indigenous and diverse culture by taking courses in Māori and Pacific Studies at the University of Auckland. Building an understanding of diverse indigenous perspectives in our changing world will help you developing skills for an international career.

You can develop an understanding of the Pacific region and its peoples from diverse cultural groups across many different islands, including Samoa, the Cook Islands, Tonga, Niue, Fiji, Tokelau, Tuvalu and Kiribati. Expand your cultural awareness through courses in Māori/Pacific languages, arts, society, performing arts, politics and history.

Unique opportunities

Maximise your study abroad experience through our short-term programmes and unique opportunities.

Practicum Study Abroad in Clinical Exercise Physiology

The University of Auckland's Clinical Exercise Physiology programme is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Obtain practical learning experience in Clinical Exercise Physiology that meets requirements for registration with professional organisations in your home country (including the American College of Sports Medicine).

www.auckland.ac.nz/clinical-exercise-physiology

International Research Programme (Faculty of Arts)

Spend six (or eight) weeks developing multidimensional research skills as you contribute to research projects that tackle complex, global issues. Research topics range from refugee resettlement to political branding and indigenous identity. Students will join a cohort of study abroad research students and work alongside Faculty of Arts academics on a variety of research tasks. Research students will begin the programme with an excursion that introduces students to the cultural context of Aotearoa New Zealand. Full project details can be found on the University of Auckland Study Abroad website.

www.auckland.ac.nz/studyabroad

Internships (Faculty of Arts)

Our Faculty of Arts gives study abroad students the chance to gain work experience through undertaking a project in a real-world workplace. The course is career-focused and gives you the opportunity to develop and showcase a variety of transferable skills of value to the workplace: research, critical analysis, report writing, teamwork, project coordination, problem-solving, communication and presentation. It is available for students who have completed two years of degree studies and mainly take courses within our Faculty of Arts.

“As a Communication, Culture, and Media major, my research entails hands-on learning about different cultures and the way people interact in society.”

“Doing research abroad is one of the best ways to gain this experience, as it combines living in a different culture with doing historical research about it. It is incredible to see the influence of Māori culture around campus. The University and the surrounding city with all its cultural diversity is what makes it such a beautiful place to live, and adds to the experience I was looking for when I came to New Zealand.”

“I have experienced cultural diversity in other settings, but it is interesting that the University of Auckland takes students from parts of the world I know almost nothing about, like Malaysia, Indonesia, Australia, and the Pacific Islands.

“I aspire to be a medical professional and I believe that the study abroad experience will help me to be a more open-minded doctor. I took courses that apply towards my neuroscience major, my pre-medical requirements and my philosophy major. In terms of content, the courses have been similar, besides the grading methods and the differing accents of the professors!

“I joined the University of Auckland Basketball Club and the Science Interfaculty Basketball team – groups that allowed me to interact with peers in a setting where I felt comfortable. It was through these experiences that I made many of my current friends. The best way to create a successful platform for your experience at the University of Auckland is to take initiative, put yourself out there, and meet people.”
